Effective Management of the Cash Cycle - Accounts Receivable & Payable

Training Course

Introduction:

Effective management of the cash cycle is crucial for maintaining a healthy financial position and ensuring business sustainability. At British Training Center, we understand the importance of optimizing accounts receivable and payable processes to enhance cash flow and reduce financial risks. This course is designed to equip participants with the essential skills and knowledge to efficiently manage cash cycles, ensuring liquidity and profitability in today's competitive business environment.

Training Objectives and Impact:

By the end of this program, participants will be able to:

- Understand the complete cash cycle and its impact on business liquidity.
- Analyze and optimize accounts receivable processes for improved cash inflow.
- Implement effective credit policies and manage customer credit risk.
- Streamline accounts payable processes to maximize cash flow efficiency.
- Negotiate payment terms to enhance working capital management.
- Utilize cash flow forecasting techniques to support strategic financial planning.
- Apply best practices for managing cash cycles in diverse business scenarios.

Targeted Competencies and Skills:

- Cash cycle management.
- Accounts receivable and payable optimization.
- Financial risk assessment and mitigation.
- Credit policy development and enforcement.
- Cash flow forecasting and strategic planning.
- Negotiation and financial communication skills.

Target Audience:

This program is tailored for:

- Finance Managers and Supervisors.
- Accounts Receivable and Payable Specialists.
- Credit Controllers and Analysts.
- Financial Analysts and Planners.
- Business Owners and Entrepreneurs seeking better cash flow management.
- Professionals in charge of working capital management.
